Harrisburg Hospital - Pinnacle Health System

Recognized for their dedication to patient safety
by the Pennsylvania Patient Safety Authority

Patient Safety

Lauren Bailey, Becky Bryson, Sally Loyd, and Julie Spickler are committed to patient safety at Harrisburg Hospital. As members of the dietary staff, Lauren, Becky, Sally, and Julie have used their simulated falls prevention education to change the culture where they work. Each has taken ownership of falls prevention on the nursing units and fostered positive working relationships with clinical staff. Becky alone has saved at least eight patients from serious harm due to a fall.*

Whether responding to bed alarms or paying close attention to patients identified as a fall risk, the dietary staff is committed to preventing falls with harm.

Join the Pennsylvania Patient Safety Authority in congratulating Lauren Bailey, Becky Bryson, Sally Loyd, and Julie Spickler for their commitment to preventing falls with harm to patients at Harrisburg Hospital.
