

Janice Reppert

Environmental Services Manager
St. Luke's University Health Network –
Anderson Campus

Recognized for her dedication to patient safety
by the Pennsylvania Patient Safety Authority

I AM

Patient Safety

Janice Reppert is committed to patient safety at St. Luke's University Health Network – Anderson Campus. As the Environmental Services Manager, Janice participates on the hospital's patient safety and quality infection control committees. She offered to be a TeamSTEPPS™ trainer and encouraged many team members to become "secret shoppers" in a program she helped develop to reduce *Clostridium difficile* (C. diff) among patients within the facility.

Janice also coordinates the "bleach cycle" cleaning of all clinical units, with team huddles every day to discuss progress or barriers for keeping patients safe. She is always ready to lend a helping hand and does bedside EVS rounds with patients to get feedback on hospital cleanliness.

Join the Pennsylvania Patient Safety Authority in congratulating Janice Reppert for her leadership efforts to prevent infections at St. Luke's University Health Network – Anderson Campus.
