

## Mashiul Chowdhury, MD

Chief of Infectious Diseases, Director of Infection Control & Antibiotic Stewardship Program  
Cancer Treatment Centers of America® (CTCA)  
at Eastern Regional Medical Center

Recognized for his dedication to patient safety  
by the Pennsylvania Patient Safety Authority

# I AM

# Patient Safety

**Mashiul Chowdhury** is committed to patient safety at CTCA® at Eastern Regional Medical Center in Philadelphia. As Chief of Infectious Diseases, Dr. Chowdhury developed and launched guidelines for surgical antibiotic prophylaxis, post-splenectomy vaccination, appropriate pneumococcal vaccination, and antibiotic prophylaxis and vaccination for stem cell transplant patients. He also improved the turnaround time for receiving all culture results and led a multidisciplinary Ebola task force.

Dr. Chowdhury is described by a colleague as “singularly focused on achieving the best possible outcome for the patient. He has succeeded in bringing the principles of clinical medicine, antibiotic stewardship, and infection prevention together to meet this objective.”

Join the Pennsylvania Patient Safety Authority in congratulating Dr. Mashiul Chowdhury for his leadership in preventing infections and dedication to providing patients with the best possible outcomes at CTCA.
