

Brenda Prabhakar, RN

Emergency Department
Doylestown Hospital

Recognized for her dedication to patient safety
by the Pennsylvania Patient Safety Authority

I AM

Patient Safety

Brenda Prabhakar is committed to patient safety at Doylestown Hospital. As a nurse in the emergency department (ED), Brenda focused on reviewing each case in the ED to allow early detection of the septic (infection) state, proper collection of blood cultures, aggressive administration of intravenous fluids, routine ordering of lactate levels and administration of clinically appropriate antibiotics.

With her findings, Brenda educates clinical staff with best practices to improve patient outcomes and plans to expand education to include Emergency Medical Services.

Join the Pennsylvania Patient Safety Authority in congratulating Brenda Prabhakar for her efforts in transforming the care model for patients at Doylestown Hospital.
